About Green Globe Realisation

About

The Green Globe Realisation (GGR) is a non-profit organization dedicated to the preservation and conservation of arid areas of Kenya like Wajir, Marsabit, Garissa, Mandera, Turkana, Tana River, Narok and more. Established in 2022, GGR operates with the objective of mitigating the ecological challenges faced by arid areas of Kenya and ensuring its sustainable development. Our multidisciplinary team comprises environmental scientists, researchers, conservationists, and community development experts who collaborate to address the unique environmental issues prevalent in arid areas of Kenya. Through our diverse range of projects and initiatives, we aim to create a positive and lasting impact on the ecosystems, biodiversity, and livelihoods in the region.

Mission

Our mission is to protect and conserve the environment in North Eastern Kenya by implementing sustainable solutions that promote biodiversity, preserve natural resources, and empower local communities.

Vision

Our vision is to create a world where arid areas thrive through the adoption of sustainable environmental practices, leading to healthy ecosystems, increased economic prosperity, and social well-being for all.

message from founder

Dear Green Globe Realisation Community,

As we reflect on the past year's journey, I am filled with immense gratitude and pride for the strides we've taken together in our mission for a greener planet. The commitment and passion demonstrated by each member of our community have been instrumental in shaping the positive impact we've achieved.

In 2023, we continued our dedicated efforts, from nurturing saplings at GGR Parklands Tree Nursery to expanding our reach in communities like Rababale, Wajir County, Narok, Siaya, and Ramogi, Bondo. Our collective commitment to environmental stewardship has left a lasting mark on the landscapes we touched.

Participating in the Africa Climate Summit 2023 marked a pivotal moment for Green Globe Realisation, as we collaborated on a global scale to address climate challenges. This experience showcased the power of our united efforts in making a difference beyond borders.

Looking ahead, let us renew our commitment to 'Plant For The Planet.' Every tree we plant is a promise fulfilled—a promise of a healthier, more sustainable future. I am inspired by the strides we've made and eager for the opportunities that lie ahead as we continue to grow and evolve.

Thank you for being the driving force behind Green Globe Realisation's success. Together, we are sowing the seeds of positive change and creating a legacy for generations to come.

With deep appreciation,

Farah Ali,

Founder, Green Globe Realisation

Accomplishments

Cultivating a green legacy at GGR Park-lands Tree Nursery. Each sapling sown is a promise to nurture a thriving future. Together, we've created a sanctuary where the echoes of rustling leaves tell the story of our commitment to nature

Rababale, Wajir County — expanding our roots and fostering vibrant landscapes. Each tree planted tells a tale of sustainable growth. In this arid terrain, our trees stand as resilient symbols, providing shade and hope for generations.

In Narok, our roots run deep, sowing seeds of lasting change. Together, we've made a profound impact on the environmental canvas. The vibrant tapestry of Narok now bears the hues of our collective dedication to a greener Earth.

Accomplishments

Global ambassadors at the Africa Climate Summit 2023. Collaborating worldwide, we aimed for climate solutions, championing a sustainable tomorrow. Our presence resonated as a call to action, inspiring others to join the movement for a climate-resilient planet

In Siaya, we embraced the challenge of crafting sustainable havens. Our efforts soared as we planted trees, securing a verdant legacy for the future. The canopy of trees in Siaya now stands tall, a testament to our shared vision of a flourishing ecosystem.

From Siaya to Ramogi, Bondo, communities joined hands. Together, we planted seeds of change, fostering a lush environment for harmonious coexistence. Ramogi, Bondo, now flourishes with the fruits of our collaborative effort, a living example of positive transformation.

Green Globe Realization stands proud, having cultivated a legacy of sustainable impact. From the roots of GGR Park-lands Tree Nursery to the global stage of the Africa Climate Summit, each accomplishment tells a story of commitment to environmental stewardship. Our journey continues into the future, guided by the promise to 'Plant For The Planet,' ensuring a greener, more resilient world. Thank you for being a crucial part of our green journey, where every tree planted echoes our shared commitment to a harmonious coexistence between nature and humanity.
